DRIP TRAY DT

PRODUCT DESCRIPTION AND APPLICATION

Airfoil's Australian Made Drip Tray (DT), crafted from premium 0.55 mm galvanised sheet metal, are meticulously manufactured to meet the highest standards. These trays, usually 40mm deep, are equipped with a trap for added functionality.

Drip Trays are typically positioned beneath air conditioning units or in spots prone to high condensation levels. Tailored to specific requirements, Airfoil's Drip Trays can be custom-made to meet any specification, ensuring precise fit and optimal performance.

DRIP TRAY DT
