METAL SIDE BOOT SB

PRODUCT DESCRIPTION AND APPLICATION

Airfoil's Australian Made Metal Side Boot (SB) is manufactured from 0.55mm galvanised sheet metal to the highest standard. They have a spigot placement **adjacent to the open end**, but differs to the End Boot (EB) due to the spigot placement being on the **long side** of the box. This particular configuration is useful in areas of restricted ceiling space. The Metal Side Boot is compatible with all Airfoil's grille range.

Available in a range of options, the Metal Side Boot can be tailored to suit specific needs. Whether opting for an uninsulated (Plain) version or selecting from a variety of standard insulation types such as 5mm or 10mm Rubber, 13mm or 25mm Polyester, or 13mm or 25mm Black-faced Fibreglass and 25mm Perforated Black-faced Fibreglass, Airfoil provides flexibility to meet diverse requirements. Additionally, custom insulation options are available upon request to cater to unique specifications.

Designed to seamlessly integrate with Airfoils' Supply and Return Air Grille range this quality Metal Side Boot ensures compatibility and efficiency. Suitable for both commercial and domestic settings, where thermal and acoustic requirements are paramount, it stands as a testament to Airfoil's commitment to excellence in Sheet Metal solutions.

METAL SIDE BOOT SB

PRODUCT SPECIFICATIONS AND INFORMATION

- **Product ordering code – SB**
- Australian Made and Designed
- Manufactured from 0.55mm Australian galvanised steel
